

The **Teo IP Phone 4104** is a full-featured model that is ideal for office users. With a bright backlit display, access to four lines, and dedicated feature keys, the 4104 is perfect for the power user looking for high functionality. Like the IP Phone 7810, the 4104 incorporates TLS and SRTP encryption and supports both IPv4 and IPv6 transport.

The Teo IP Phone 4104 features a full-duplex speakerphone, a 100-entry call log, 12 busy/feature/speed-dial keys with indicator lights, a dedicated headset port and control button, a 36-entry call directory, and a built-in 10/100 Base-T Ethernet switch. It incorporates SRTP and TLS encryption and both IPv4 and IPv6 transport.
